Completion of 26 years is indeed a milestone in the life of an educational Institution. MGEMS since its inception in 1999 has earned a laudable appreciation for imparting academic excellence, sense of discipline and moral values.

It is an enduring tradition to take time to pause, turn around to look back at the fruitful year gone by, achieving both the expected and unexpected while setting various milestones and then synergizing ourselves to move ahead to face the challenges in the coming year with a positive attitude. There is always a podium laid for every individual to dream! To drive! To determine and to decide their destiny.

Mar Gregorios is always there as a platform for our students to dream big and to explore the capabilities and to excel in whatever they do. At the outset let me thank God Almighty for all his blessings bestowed on us year after year.

Our Institution has a strong team of 70 members in all capabilities who are dedicated and inspired by the motto of our school and ready to work hard and give their best in all our activities. Time has taught us to face challenges which is in turn equipped us to innovate and explore alternative methods to move ahead and to achieve our goals. This year we are
